Percentage-70%
2018-2021
Narayana Engineering College,Nellore.

Diploma In Civil ENGG,
Percentage-76%
2015-2018
G.I.S.T. College, Vijaywada.

SSC
CGPA -8.3
2015
N.B.P, School,Anantapur.

EXPERIENCE

Associate Software Engineer
Tata Consultancy Services (TCS). (Dec/-2021) to Present.
Projects:
Projects: Energy Meter Management System
Developed a web-based application using React.js to enable the client to manage the status of energy meters installed across the UK.
Implemented a user-friendly interface for viewing, editing, and analysing meter data, leveraging React components and libraries.
Integrated various APIs and data sources to fetch real-time meter readings, track usage patterns, and generate insightful reports.
Collaborated with a large team of developers in an AWS CodeCommit environment, ensuring smooth coordination and code integration.
Actively participated in Agile development methodologies, including sprint planning, daily stand-ups, and retrospective meetings.

Junior Frontend Developer(Intership)
Worked Under a FreeLancer (JULY/-2021) to OCT/-2021.
Projects: Worked on a Construction Company website Named HPR GODAVARI BUILDERS & DVELOPERS
Developed a Static web-based application using React.js, JavaScript , HTML & CSS. with good responsive web designing as per client requirements by using FIGMA reference and worked on some static content preparation using HTML & CSS for some E-Commerce websites.
